PROJECTS

2026 - 2026 | WEBSITE LETENDEADARTE.IT

Freelance

A business website created for Le Tende Ad Arte, a local shop based in Magenta. The website was designed to establish a simple and professional online presence, presenting the shop's products, services, and contact information in a clear and accessible way for potential customers.

2024 - 2025 | VOCI ANDROID APP

Freelance Uni Project

This project was created as an assignment for the University of Milano Bicocca course "Dispositivi Mobili".

The idea is to create an app that would help catalog and manage requests and updates about homeless people in Milan. It was born because of a member of the team who is also a member of the VoCi ONLUS, an organization that aims to aid the homeless people of their city.

2022 - 2022 | VOCI WEBSITE

Freelance

Designed and built an informational website for the VoCi group using the Wix.com editor. The website includes an overview of the group's history, key information about its activities, and a contact form to support direct communication with visitors.

EDUCATION

2022 - CURRENT | UNIVERSITÀ DI MILANO BICOCCA

Bachelor Degree in Computer Science

2017 - 2022 | I.T.I.S. STANISLAO CANNIZZARO

Diploma in Informatica

SOFT SKILLS

Through academic and personal projects, I developed organizational skills, attention to detail, and the ability to work independently on digital products. During the university Android app project, I also coordinated part of the team work, helping organize tasks and keep the group aligned. These experiences improved my teamwork, problem-solving, communication, and ability to explain technical choices clearly. Comfortable with Java, JavaScript, and Kotlin.
